NDMSP seeks interested applicants for the Motorcycle Advisory Committee

The North Dakota Motorcycle Safety Program (NDMSP) is seeking applicants to serve on a newly formed NDMSP Advisory Committee. The NDMSP is looking statewide for individuals from a variety of backgrounds, including, but not limited to, representatives of: rider groups; healthcare providers; law enforcement; retail motorcycle dealers; account/finance; state agencies; private organizations; highway engineers; and concerned citizens.

Those that are interested in applying must submit their application to the North Dakota Department of Transportation (NDDOT) by Monday, October 26, 2015.

The committee will provide input to the NDMSP program, including identification of problems, gaps in services, program direction, and technical guidance. Members will play an active role within their communities, regions, or networks to assist the program in meeting its overall goal of reducing motorcycle crashes and preventing injuries and fatalities in North Dakota.

It is anticipated the committee will meet four times a year, either face-to-face or through conference calls. However, it will be required to hold one face-to-face meeting in Bismarck.

If you or someone you know may be interested in applying, contact 701-328-4354 or cthurn@nd.gov for more information.
